

EMPLOYEE REPRESENTATION REGARDING
USE OF COMPANY VEHICLE
FOR CALENDAR YEAR 2020

The IRS requires employers to provide certain information on their tax return with respect to the vehicles provided to employees. This information is also used to calculate the amount of the fringe benefit to be included in the employee's Form W-2 income.

The IRS generally requires that written records be maintained to document the business use of vehicles. Since the company policy requires employees to maintain the detailed records, please provide answers to the following questions. If you were provided more than one vehicle that was used during the year, you need to prepare a separate statement for each vehicle.

The completed form must be returned no later than _____ or 100% of the value of the use of the vehicle will be included in your Form W-2 income. (date)

Description of vehicle: _____

Reporting period from _____ to _____

Select one method (note limitations on methods II and III)

METHOD I - ANNUAL LEASE VALUE METHOD (For Vehicles Available 30 Days or More)

Fair market value of vehicle (to be redetermined at the beginning of the fifth year and every four years thereafter)		\$	_____
Annual lease value, per attached chart		\$	_____ ⁽¹⁾
Enter number of days during the year that the vehicle was available	x		_____
Divide by number of days in tax year	÷		_____
Prorated annual lease value	=		_____
Personal use % (personal/total miles, per statement from employee)	x		_____ %
Personal annual lease value	= \$		_____
If fuel is provided by employer, enter personal miles _____ x _____ ⁽²⁾	+		_____ +
Personal use taxable income	= \$		=====

⁽¹⁾For autos available for 7 days or less, multiply the annual lease value by 4. If the availability is more than 7 days, but less than 30, the taxpayer may elect to use the annual lease value without the 4 multiplier.

⁽²⁾If fuel is provided "in kind," the fair market value may be determined based on all facts and circumstances or, alternatively, at 5½ cents per mile if auto usage is within the U.S., Canada, and Mexico. Generally, where fuel is purchased and charged to the employer, the actual cost or reimbursement should be used. If employers with a fleet of 20 or more vehicles reimburse or allow employees to charge fuel cost, the fleet-average cents per mile may be used. If the fleet employer determines that actual cost or fleet average methods are unreasonable administrative burdens, the 5½ cents per mile may be used.

METHOD II - STANDARD MILEAGE RATE METHOD

Generally, in order to qualify to use the cents-per-mile method, the vehicle must: (1) be expected to be regularly used in the employer's business throughout the calendar year, or (2) be driven at least 10,000 miles per year, and (3) have a fair market value of \$50,000 or less for passenger automobiles, trucks or vans. Once this method is adopted for a particular vehicle, it must be continued until the vehicle no longer qualifies.

Enter personal miles	_____ x \$0.575 =	\$ _____
If fuel is provided by the Employer enter personal miles	_____ x \$0.055 =	(_____)
Personal use taxable income		\$ _____

METHOD III - SPECIAL COMMUTING METHOD

This method may only be used for vehicles covered by a written policy that allows commuting but no other personal use. DO NOT USE if employee is a 1% or more owner, an officer with compensation of \$110,000 or more, or an individual with compensation equaling or exceeding \$225,000 or a director, regardless of compensation.
